### HIGH PERFORMANCE BAMBOO / FIBERGLASS - Hard Carving

**FLEX 1 - Flexy** - For riders weighing 170 lbs. or less.

**FLEX 2 - Stiff** - For riders weighing 170 lbs. or more, or who want a stiffer ride.

Designed for all around high performance ripping, these boards are rockered from truck to truck giving the rider a lower center of gravity and also changes the angle of the trucks making the board turn tighter. These boards have a verticle grain bamboo core sandwiched between triaxle fiberglass with bamboo top and bottom using epoxy glue. Each board has a snappy flex pattern from truck to truck for the the weight of the rider and a stiffened tail with extra fiberglass!
